5. www.mathemateg.com- adnoddau mathemateg
6. dysgugydasam.co.uk - adnoddau am ddim

Access

Google classrooms and Microsoft Teams can be accessed via Xbox and PlayStation.

If you have an iPhone or iPad you actually have a scanner. You can access this by using Notes App. Open a new note, press the camera button, the option to scan document will pop up. Once the document is scanned you can email it. You can also add notes to any scanned document. This also works on android.
